
 <p>USER MANUAL</p>	 <p>WARNING:</p> <ol style="list-style-type: none"> 1. The E MOD is only intended for use by persons of legal smoking age who are current smokers. This product is not intended for nonsmokers, persons under the legal smoking age, women who are pregnant or breast-feeding, or persons with or at risk of heart disease, high blood pressure, diabetes, or taking medicine for depression or asthma. Consult a physician if you experience nicotine misuse symptoms such as nausea, vomiting, dizziness, diarrhea, weakness and rapid head beat. 2. Keep out of the reach of children and pet as ingestion of small parts can present a choking hazard. Nicotine can be toxic if inhaled or ingested. Nicotine may cause irritation to eyes and skin. Wash immediately with soap and water upon 	<p>contact. Seek medical advice in the case of dizziness, drowsiness, accident or if you feel unwell.</p> <ol style="list-style-type: none"> 3. Avoid direct contact with the nicotine liquid contained in your atomizer. This liquid can cause irritation. 4. If you experience adverse reaction, reduce the strength of your nicotine e-juice, If the problem persists, we recommend you discontinue the use of this product and see your physician. 5. Our products do not treat, diagnose, or cure any disease, physical ailment, or condition. If you are allergic to nicotine or any combination of Inhalants, if you are pregnant or breast-feeding, or if you have a heart condition, diabetes, high blood pressure or asthma, consult your physician before using MJT nicotine products. 6. MJT does not market this product as a smoking cessation device. Just like traditional tobacco cigarettes. 7. Take care of your E MOD against any damage by avoiding forceful externalities as dropping etc. 	<ol style="list-style-type: none"> 8. You are kindly advised that battery may be in dire need of recharging below the level of 10% for the sake of E MOD normal function and thereof vaping experience. 9. Keep E MOD away from high temperature environment in use or storage. <p>WARRANTY: 6 months</p> <p>BASIC PARAMETER:</p> <p>Weight: 97g Dimension: 133.5*19mm Diameter: 19mm Atomizer Filling Capacity: 2.8ml Variable Voltage Range: 3.0-6V Defaulted (Standard) Voltage: 3.7V Resistance: 1.8/2.0 ohm Variable Wattage: 5-15 W LED Background Color: 7 color options Battery Capacity: 2000mAh Battery Color Options: Black and Silver</p>
---	---	---	---

<p>REMARKABLE FEATURES:</p> <ul style="list-style-type: none"> -Adjustable air flow -Variable voltage and wattage -Huge vaping power source (2000mah) -Short circuit protection -Low wattage warning -Overtime vaping warning -Battery safety protection. - Incredible vapor production -510 thread (compatible with CE series, Evod, MT3, Protank atomizers) - High Quality Design -Designed for social situations where you cannot use tobacco cigarettes -No embarrassing odors that linger in your home, vehicle or on clothing <p>HOW TO USE:</p> <p>♦Working State:</p> <ol style="list-style-type: none"> 1.Power up: Puff count reads when LCD displays resistance readings 1.5 seconds after switching on, E-mod enters into working condition. 2.Vaping Begins: Current starts after 0.25 seconds when button is clicked continuously for 5 times, LED Light keeps itself on gradually and begins 	<p>to take resistance readings 1.5 seconds later when puff count is displayed. A draw puff for 10s leads to 10 times' LCD flash, then it disappears and LED turns off simultaneously.</p> <p>3.Two clicks on switch to swap menu: Voltage Output (defaulted voltage is 3.0V): Press "+" Button, Output Voltage changes from 3.0V to 6.0V. Press "-" Button, vice versa as above.</p> <p>LCD displaying three-Letter "LCD" Press "+" Button, colors show in following turn: "blue→green→red→white→cyan→purple→yellow→blue". Press "-" Button, colors show in reverse turn: "blue→yellow→purple cyan→white→red→green→blue".</p> <p>Wattage Output (Defaulted is 10W) Press "+" Button, wattage Output varies from P05 to P15. Press "-" Button, vice versa as above.</p> <p>Total puff count: Total Puff Count (puff count reading will not be cleared off as long as power remains.)</p>	<ol style="list-style-type: none"> 4.Detachable atomizer: Detachable atomizer makes resistance readings as sign "ooo" showed by LED. 5.Atomizer short-circuit protection: Atomizer short-circuit results in vaping stopping and readings of resistance on LED shows as symbol "-", then LED will flash 3 times at the same time. 6.Voltage testing: When voltage reading is below the level of 3.2V, LCD flashes 10 times and shows symbol "LO". 7.LCD shows battery volume: Volume is always showed on LCD screen. <p>♦Charging State:</p> <ol style="list-style-type: none"> 1.Plug-in: Plug in charger and LCD flashes 3 times to keep itself on constantly, then puff count becomes zero and meanwhile LCD displays 7 colors alternatively, symbol "CHR" shows battery volume dynamics when charging. 2.Full charge: Symbol FUL means the battery is fully charged, LCD would not stop flashing until 20 times flashes 	<p>and LCD ceases to display and enters into a dormant state.</p> <ol style="list-style-type: none"> 3.Plug out: Disconnect MOS to enter into a dominant state. <p>♦ Switch on and off State: 5 quick clicks within 2.5 seconds lead to switch on and off, resistance readings appear after puff count keeps displaying for 1.5 seconds, then it enters into a dormant state.</p>
